

This free seminar will cover dormant pruning — from theory to hands-on techniques on how to prune non-bearing vines to mature vines.

The grape pruning seminar will explain dormant pruning basics to balance vegetative and reproductive growth to:

- Maintain fruit quality
- Maintain cold hardiness
- Maintain vine health

Please bring your work gloves and your pruners to the program.

UW PENINSULAR STATION  
4312 HWY 42  
STURGEON BAY, WI 54235

## GRAPE PRUNING SEMINAR

SATURDAY, April 9, 2011

10:30 AM

UW PENINSULAR  
RESEARCH STATION

4312 HWY 42
